Subject: RE: PRR 4237

Date: Wed, 04 Feb 2026 16:32:01 -0000

Importance: Normal

Yes, but it appears the request is focused on communications, so I imagine most of that will be in email.

Subject: RE: PRR 4237

Will do (but just an estimate of time at this point, right?)

Thanks, Jerry. You can let her know that our office will perform the email search. She will just need to gather any responsive records that would not be in her email.

I can confirm this is associated with her university roles/responsibilities and part of her work.

I had a conversation with her, and will now forward the list such that she can come up with an estimate of time to compile the records.

Thanks,
JBZ

Jerry,

Can you clarify if Dr. Carriquiry did this in her university role, and whether this is her scholarly work?

Well, we aren't the University of Iowa as the request states, so not sure about that.

I can reach out to AC and get an estimate of time.

Jerry and Barbara,

Here is a new records request we received. Please advise how I should proceed.

Thank you,
Ann
