You don't often get email from [REDACTED]. [Learn why this is important](#)

WARNING: This email is from outside of the Oregon Judicial Department. If links or files in this email are unexpected, even if from an email address you trust, please call the sender on the phone and verify them before you click.

Dear Judge Cahill and all,

That would be amazing, and thank you so much for offering to do so! We would absolutely welcome any additional distribution through all of your judicial networks, if at all possible.

Thanks again,
John

CAUTION: This email originated from outside of the organization.

John,

Do I have your permission to send this to our judicial ed committee for possible distribution to all judges? If so, would the judges just log in through that link?

Peter

Dear Judicial Leaders in Climate Science,

The Climate Judiciary Project is pleased to invite you to an exciting upcoming webinar on **Tuesday April 4 at 3 pm ET**, [Rising Seas and Litigation: What Judges Need to Know about Warming-Driven Sea-Level Rise](#), in collaboration with the National Judicial College. This 75-minute webinar will feature Chief Justice Mark Recktenwald of Hawai'i, who will give a brief overview of the legal issues associated with sea-level rise, followed by an in-depth presentation on sea-level science by [Professor Rob DeConto](#) of the University of Massachusetts Amherst—an internationally recognized and world-leading scientist in the field. We hope to see you there!

Best wishes,
John
