You're welcome! I did have to get IT involved to figure out how to download it, but after that, it was just a matter of printing. It did not take me long at all. Have a good day.

Hi Kim,  
I am going to this program next week (leaving Sunday morning.) Would you please help me to have the download configured with IS so that I can download it. I tried to do so but I got a message that there was a network issue. Also, I don't know the size of the materials, but if it is not too large, it might be helpful for me to have the materials printed out and put in a binder that I can take with me. That way, I would not have to rely on a computer.  
Thanks very much!  
Clare
