content is safe.

Dear David,

Thanks so much for your message! We're delighted to hear that you're interested in sharing the modules. You're right, the modules are copyrighted and are ready for dissemination. You are welcome to distribute them as you see fit, including to your colleagues and through events like the one you describe with the Environmental Bar Association.

If anybody else plans to share the modules, to the extent you're able to send any details about who you have shared them with, that will be helpful for determining how many folks the curriculum is reaching.

I'm happy to answer any more questions about any aspect of the curriculum and we hope you're finding it helpful!

Thanks, and all the best,

Jarryd

Jarryd: Are the individual papers, such as the overview of climate litigation, copyrighted and assuming so, what is the process to obtain permission to distribute. I am speaking to the Environmental Bar Association in May and would love to be able to provide this as a handout.

Thank you,

DSM

David S. Mann, Judge

Washington Court of Appeals, Division I

600 University Ave.

Seattle, WA 98101-4170

Dear Judicial Leaders,

I hope your 2023 is off to a great start! Thanks so much for sending us your action plans; we're excited to see the directions you are going.

We're also excited to let you know that you can now find the majority of teaching modules for the Climate Judiciary Project curriculum at our website, <https://www.eli.org/climate-judiciary-project>. Once there, click the drop-down arrow next to "Climate Science and Law for Judges Curriculum" to find materials on the following topics:

- How Climate Science Works
- What is Causing Climate Change?
- Impacts of Climate Change
- Climate Justice (coming soon)
- Risks and Costs of Climate Change
- Drawing the Causal Chain: The Detection and Attribution of Climate Change (coming soon)
- Solving the Climate Change Problem (coming soon)
- Overview of Climate Litigation
- Applying Attribution: Impacts of Climate Attribution Science on Tort Litigation
- Government Action and Climate Science
- Fundamental Rights
- Procedural Techniques Available for Climate Litigation
- Judicial Remedies for Climate Disruption (coming soon)

These modules are designed and written specifically with judges in mind, so we hope you will explore them, and more importantly that you will find them useful! We very much would appreciate any feedback about which modules you and your colleagues are most interested in. We'll be following up with you individually to see about additional dissemination and educational opportunities surrounding the curriculum.

Keep up the great work!

All the best,

Jarryd

Jarryd Page (he/him)  
Environmental Law Institute  
Staff Attorney
