

Advisory Committee Members

Professor Jonathan H. Adler, Director of the Coleman P. Burke Center for Environmental Law, Case Western Reserve University

Jonathan H. Adler is the inaugural Johan Verheij Memorial Professor of Law and the founding Director of the Coleman P. Burke Center for Environmental Law at the Case Western Reserve University School of Law, where he teaches courses in environmental, administrative and constitutional law. Professor Adler is the author or editor of seven books, including *Marijuana Federalism: Uncle Sam and Mary Jane* (Brookings Institution Press, 2020), *Business and the Roberts Court* (Oxford University Press, 2016), *Rebuilding the Ark: New Perspectives on Endangered Species Act Reform* (AEI Press, 2011) and *Climate Liberalism: Perspectives on Liberty, Property and Pollution* (Palgrave).

Professor Kristie L. Ebi, Center for Environmental and Occupational Health Services, University of Washington

Kristie L. Ebi, Ph.D., MPH has been conducting research and practice on the health risks of climate variability and change for 25 years, focusing on understanding sources of vulnerability; estimating current and future health risks of climate change; designing adaptation policies and measures to reduce risks in multi-stressor environments; and estimating the health co-benefits of mitigation policies. She has supported multiple countries in Central America, Europe, Africa, Asia, and the Pacific in assessing their vulnerabilities and implementing adaptation policies and programs.

Judge Jeremy Fogel (ret.), Executive Director, Berkeley Judicial Institute

Judge Jeremy Fogel is the first Executive Director of the Berkeley Judicial Institute, a center at Berkeley Law School whose mission is to build bridges between judges and academics and to promote an ethical, resilient and independent judiciary. Prior to his appointment at Berkeley, he served as Director of the Federal Judicial Center in Washington, DC (2011-2018), as a United States District Judge for the Northern District of California (1998-2011), and as a judge of the Santa Clara County Superior (1986-1998) and Municipal (1981-1986) Courts. He was the founding Directing Attorney of the Mental Health Advocacy Project from 1978 to 1981.

Professor Michael Gerrard, Director, Sabin Center for Climate Change Law, Columbia University Law School

The founder and faculty director of the groundbreaking Sabin Center for Climate Change Law and one of the foremost environmental lawyers in the nation, Michael Gerrard is an advocate, litigator, teacher, and scholar who has pioneered cutting-edge legal tools and strategies for addressing climate change. He writes and teaches courses on environmental law, climate change law, and energy regulation. He was the chair of the faculty of Columbia University's renowned Earth Institute from 2015 to 2018.

Professor Barry E. Hill, Vermont Law School

Barry E. Hill is a recognized expert on environmental justice and sustainable development issues. Professor Hill is an Adjunct Professor of Law at Vermont Law School, where he has taught an environmental justice and sustainable development course for more than 20 years. He has been a Visiting Scholar at the Environmental Law Institute, an environmental law and policy think-tank in Washington, D.C., since he retired from federal service in March 2015. Professor Hill was Senior Counsel for Environmental Governance, Office of International and Tribal Affairs, United States Environmental Protection Agency (U.S. EPA) from 2007-2015. Previously, Professor Hill was Director of the U.S. EPA's Office of Environmental Justice from 1998-2007. Prior to that, he was the U.S. Department of the Interior's Associate Solicitor, Division of Conservation and Wildlife, and the Director, Office of Hearings and Appeals.

Professor Michael Oppenheimer, Director of the Center for Policy Research on Energy and the Environment, School of Public and International Affairs, Princeton University

Michael Oppenheimer is the Albert G. Milbank Professor of Geosciences and International Affairs in the Princeton School of Public and International Affairs (SPIA), the Department of Geosciences, and the High Meadows Environmental Institute at Princeton University. He is the Director of the Center for Policy Research on Energy and the Environment (C-PREE) at SPIA and Faculty Associate of the Atmospheric and Ocean Sciences Program and the Princeton Institute for International and Regional Studies. Oppenheimer is a long-time participant in the Intergovernmental Panel on Climate Change (IPCC) that won the Nobel Peace Prize in 2007.

Judge Michael Simon, United States District Court, Oregon

Judge Simon has served a U.S. District Judge since 2011. Michael Simon was a trial attorney with the U.S. Department of Justice, Antitrust Division, in Washington, D.C., until 1986, when he and his wife moved to Oregon. That year, he joined the Perkins Coie law firm in Portland, where he had a trial and appellate practice in federal and state courts, handling a wide variety of business cases and several First Amendment and other constitutional law matters. Judge Simon is married to U.S. Representative Suzanne Bonamici (OR-1).

Climate Judiciary Project Staff

Sandra Nichols Thiam, Vice President of Research and Policy and Director, Climate Judiciary Project, Environmental Law Institute

Sandra Nichols Thiam is an attorney specialized in developing and implementing effective legal and policy approaches to solve sustainable development challenges. She conducts innovative research in these fields and is a skilled project manager with practical field experience. She has 16 years experience in strategic program development, promoting rule of law and good governance in natural resources sectors, advocating for communities, advising governments on comparative best practices, and designing and implementing training programs for a broad spectrum of stakeholders including high-level government officials. She has worked across the United States, Latin America and the Caribbean, Africa, Asia and internationally on a broad range of topics including resource rights, forest legality and enforcement, biodiversity protection, climate mitigation and adaption, and on the nexus between natural resource management and peacebuilding. In addition to serving as the Vice President for Research & Policy, she is also ELI's Director of Judicial Education.

Paul Hanle, Founder, Climate Judiciary Project

Dr. Paul A. Hanle is a Visiting Scholar and the Founder of the Climate Judiciary Project of the Environmental Law Institute in Washington, DC. He retired in 2018 from his position as President and CEO of Climate Central. Paul has devoted his 50-year career to public understanding of science and environmental conservation. From 1987 until 2011, he served serially as chief executive officer of the Maryland Science Center in Baltimore, president of the Academy of Natural Sciences of Philadelphia, and first president of the Biotechnology Institute in Washington, DC. His volunteer services have included advising the Obama Administration on the attribution of extreme weather events to climate change, serving on the planning group for its "Educate to Innovate" initiative, and serving on the Steering Committee of the Business and Industry STEM Education Coalition. Hanle earned a Ph.D. in the History of Science and Medicine and an M.S. in Physics from Yale University. He earned his undergraduate degree in physics from Princeton University.

Jarryd Page, Staff Attorney, Environmental Law Institute

Jarryd C. Page is a Staff Attorney at the Environmental Law Institute. Jarryd works at the intersection of climate change, policy research, and education. He works on a broad portfolio of projects at ELI, including the Climate Judiciary Project, public lands management, and sea level rise and coastal resilience. He has experience in both domestic and international environmental law and policy issues. Page received his J.D. with Honors from The George Washington University Law School, where he earned the Charles and Kathryn Miller Environmental Law Award for excellence in the field of environmental law. He received his B.S. in Environmental Law & Policy from the University of Maryland and holds a B.A. from the University of Wisconsin-Madison and M.A. from the University of Kansas, both in Art History.

John Doherty, Science Fellow, Environmental Law Institute

Dr. John M. Doherty is an environmental scientist experienced in the fields of oceanography, marine ecology, and paleoclimatology. His passion to bridge the gaps between science and governance led him to his current position as the Environmental Law Institute's Science Fellow, where he contributes scientific expertise to the Climate Judiciary Project's (CJP) overarching goal of providing educational services to judges on the science of climate change and climate impacts. This takes the form of 1) writing and editing science-based curriculum modules, 2) advising the CJP team on scientific matters related to climate change, and 3) identifying how cutting-edge climate science may be applied to the law. He also leads a research effort on judicial engagement with science in the context of climate cases in state courts. In addition, he works with the whole CJP team to organize various in-person and virtual events that bring together world-leading members of the scientific, legal-scholarly, and judicial communities. He has previously published academic work on the topics of ocean circulation in the high-latitude North Atlantic, paleoclimatology, and marine biogeochemistry. With experience working in the US and Asia in both natural-science and governance fields, he takes an interdisciplinary and international approach to thinking about environmental problems and their solutions.

Jared Mummert, Manager, Climate Judiciary Project, Environmental Law Institute

Jared Mummert is the Manager of the Climate Judiciary Project at the Environmental Law Institute. Jared has a background in campaign organizing on the Clean Water Act, industrial agriculture, and public lands, three seasons as a National Park Ranger, and leading programs and resources to enhance equitable access to greenspaces through a community-driven systems-level approach. Jared has a Masters of Public Administration and Environmental Science and Public Policy from George Mason University's Schar School of Policy and Government and a B.S. in Environmental Law and Policy from Unity College in Maine.
