That's wonderful news, because I actually do have responsibility for our NJC AI initiative. I would like to engage you in our NJC AI program too. We should talk.

The National Judicial Summit is also one of my programs. The AI program is organized by the Santa Fe Institute, with my assistance recruiting judges to speak. You can see the full AI track agenda, including email addresses below. We would love to have you join us for the whole Summit if you are available. Consistent with NJC practice, we would engage you in the AI discussion and sounds like you would have things to share.

I have no doubt that this Summit would be fulfilling for you, and it's just down the road in Santa Fe. Just let me know and I can assist with getting you signed up for the best parts.

Alf

P.S. Have you considered my email on piloting a science for judges program in Colorado?
